DESIGN TECHNOLOGY SPECIALIST

GWWO Architects is seeking a Design Technology Specialist with strong architectural background.

About GWWO:

GWWO specializes in the design of cultural and educational projects with emphasis on responsible design that is inspirational, evocative, and progressive. We currently employ a team of 70 and recently moved to new offices in McHenry Row in Baltimore's Locust Point neighborhood. We are an Equal Opportunity Employer, including Disability/Vets.

Benefits currently offered by GWWO include a 401(k) plan with employer contributions; medical, dental, and vision insurance; pre-tax medical and child-care reimbursement plans; paid professional organization memberships; free parking; generous vacation and absence policy; partially paid FMLA leave; and thirteen paid holidays (including the days between Christmas and New Year's).

Responsibilities:

- Provide Revit support for architectural professionals.
- Provide BIM user support and training, BIM technical guidance on Revit projects. In addition to other architectural software.
- Development assistance on BIM best practices, training programs and templates.
- Conduct thorough audits of BIM models for quality assurance and quality control (QA/QC), identifying training opportunities to enhance model accuracy and efficiency.
- Staying up-to-date on the latest design technology tools and trends to improve design processes and workflows.
- Assist architectural teams with workload when need arises.

- Assist in the implementation of project standards, set-up, archiving, auditing, exporting and coordination of clash detection for projects.

Required Qualifications:

- Graduation from an Architectural degree program
- Working knowledge of Revit and AutoCAD
- Architectural Design experience
- Ability to troubleshoot Building Information Models
- Assist with development and implementation of BIM Standards
- Understanding of construction documents, including technical specifications and document coordination
- Strong building technology and problem-solving skills
- Familiarity with building codes
- Ability to work well within a team structure
- Superior interpersonal, verbal, and written communication skills
- Excellent time management and organizational skills
- Quality-minded and self-motivated
- Fluency with Office 365 software
- Physical requirements: Visual review of documents, typing.

Strongly Preferred Qualification:

- Proficiency in Sketchup Software
